PROJECTS

Auditra- Auditing & Valuation ERP

Built a full-stack ERP for property valuation and project management with role-based access, attendance tracking, payroll slips, and mobile field data collection with GPS and photos.

Gold Victoria – E-Commerce & Hotel Management System

Developed an e-commerce and hotel management platform with a client-side interface and Java-based backend, supporting product browsing, ordering, and hotel service management

Piyoway – Tourist Guide (Galle MVP)

Developed a PWA-ready tourist guide application featuring points of interest, listings, itinerary planning, and an admin dashboard using a Next.js frontend and NestJS backend.
